

Dear Friend,

Thank you for being interested in joining our efforts to restore our community one by one. You're coming into this program to let God change your life. This journey will not be easy and at times extremely difficult. I encourage you to look at it as an investment. Investments take up front costs- but in the end, you have a great payout. Investing the next year to change the rest of your life is a great investment. As you approach graduation, you will find yourself equipped, trained, and ready to be led by the Holy Spirit to impact others in your life. Be encouraged because God has a plan for you (Jeremiah 29:11).

I'll never forget the day when I accepted Christ into my life. I was sitting in Cell 121, looking at 14 years in prison. That's when I'd finally had enough. I invited Jesus Christ into my heart and since that day, things have never been the same. That doesn't mean my journey got easier but I had a peace that I didn't have before.

If you are weary, you will find rest in Jesus Christ at One Eighty. During your stay, do not put your faith in this "program", or the leadership, but put your faith in the One that holds the power to change your life forever, Jesus Christ.

Thank you and God Bless!

Your Faithful Servant,
Rusty Boruff, One Eighty Founder and Director

Who We Are and What We Do

Vision Statement: To bring love, hope and opportunity to those in crisis situations.

How: We will rely on prayer and the Word of God to transform the lives of men and women into their destinies. We will utilize hands-on discipleship methods for helping them overcome their addictions, habits, and struggles. We will accomplish this by allowing God to use us to restore lives, purify hearts, and disciple them into Godly men and women, through Jesus Christ.

Then the King will say, "Enter, you who are blessed by my Father!
Take what's coming to you in this kingdom.
It's been ready for you since the world's foundation. And here's why:
I was hungry and you fed me,
I was thirsty and you gave me a drink,
I was homeless and you gave me clothes,
I was sick and you stopped to visit,
I was in prison and you came to me."
Matthew 25:34-36(TMSG)

"Take a good, hard look at your life. Think it over." Haggai 1:7 (TMSG)

Residential Overview

One Eighty's residential program is a 14 month program, however, it is an individualized program and often times can last longer. Before residents are allowed to be promoted to the next phase, an evaluation and approval must first come from the One Eighty leadership team and staff.

Brief Description of the Phases and Goals of the One Eighty Residential Facilities

The program is designed as a 6 phase program including an Assessment Phase and a Graduation Phase. The Assessment Phase is to determine at a minimum of 15 days and a maximum of 45 days whether the resident is a "good fit" for our program. During this time, their enrollment within our program can be terminated at any time. There is no maximum to the program; however, there is an evaluation for any resident who is there longer than 14 months.

Resident Phases

A resident must meet length requirement and also the principle requirement to be moved from phase to phase. Below is a description of the phase and what it entails.

Assessment Phase (1-2months)

Principle resident must have to be eligible: Willingness

This is our entry phase where men and women come to us from a variety of situations in life. During this period, we welcome, feed, house, start the career training program and begin to engage in life together with other residents. The residents are introduced to an assessment mentor within the first two to three weeks of their stay, and we begin addressing their immediate needs and connecting them with appropriate agencies or individuals. Our goals in assessment are to secure a safe and healthy environment for our residents to have every opportunity in which to thrive and become all that God has for them. We will encourage the building of a solid foundation in Christ. Upon completion of assessment, residents will have an appropriate photo ID, have medical services, access to transportation and begin to acquire tools for living a healthy lifestyle, and with a positive assessment they will be invited to enter Phase 1.

Phase 1 (1-2months):

Minimum Time in the Program to Begin this Phase: 1 month

Principle resident must have to be eligible: Honesty

Each resident will continue to work on building a strong spiritual foundation along with healthy personal relationships, acquire new life skills, and continue to participate in the daily routine and career training program. During this phase, each resident will work on establishing a mutual, nurturing relationship with their mentor which will continue beyond the graduation and establish personal goals to work through during their time together.

Phase 2 (2-3 months):

Minimum Time in the Program to Begin this Phase: 2 months

Principle resident must have to be eligible: Teachable

This phase will mostly be a continuation of Phase 1 with a few added responsibilities and privileges. Each resident will continue to follow the daily scheduling which will include the career training program, Bible studies, required classes, and working on goals with mentor and staff.

Phase 3 (3-4 months):**Minimum Time in the Program to Begin this Phase: 4 months****Principle resident must have to be eligible: Trustworthy**

The focus of this phase is two-fold. First, residents will continue to work on personal growth through class work, career training program participation, and addressing individualized goals. Secondly, residents will begin assessing their level of readiness for entering the work force along with staff and the leadership team. An individualized plan for branching out into work will be developed. It will be determined by staff whether a resident is ready to search for a part-time or full time job or if there needs to be more focused time on personal goals before they are released to look for a job. When allowed to look for a job, residents will continue in the career training program while looking for work 2 mornings a week during career training program time. Just because a job is made available, it doesn't mean it will be allowed. All jobs must be first approved by staff prior to accepting a position and the resident will not begin work until they enter Phase 4. Side jobs are allowed during Phase 3 and will need to be approved on a case by case basis. Side jobs must be outside of class and career training program time and also be approved by Enterprise Coordinator and Residential Supervisors.

Phase 4 (4-5 months):**Minimum Time in the Program to Begin this Phase: 7 months****Principle resident must have to be eligible: Quality**

During this phase residents will continue in the program and attend evening classes at the campus while being able to work in a job outside of the One Eighty enterprises. School is also an option during phase four as long as the resident is still able to maintain employment. In this phase residents work on establishing a work routine and continue completing required classes and any other additional assignments and goals established by the House Supervisor. Our goals in Phases 3 and 4 are to continue encouraging a strong spiritual foundation and lay a strong base for a continued walk in emotional healing and personal development while overcoming addictions and unhealthy lifestyles. We'll engage in a collaborative effort to help attain excellence in employment and aid in preparation to engage life as a valued asset in society. Some residents may be given an opportunity to participate in our apprenticeship program if the potential is displayed and he/she is nominated and approved by the staff and leadership teams.

Graduation Phase (2-3 months):**Minimum Time in the Program to Begin this Phase: 11 months****Principle resident must have to be eligible: Connectedness**

At the beginning of Graduation Phase, residents may move into our stability housing or move into their own apartment if it has been approved by leadership. During this phase, residents learn to be more independent while still being connected, and we want to see a strong network of support available for continual support. Each resident is responsible to reach out and keep connected to these important relationships. Weekly church attendance is required as well as attending the Alumni Group events. Before graduation and with the assistance of the supervisors and their mentor, each resident will develop a relapse prevention plan including a support system and connection with a local church.

Graduation of the Program

Graduates continue to be a part of the One Eighty family and are encouraged to stay connected by attending Alumni and other events and groups available for graduates as well as visiting the campus. Graduates may be accepted into our stability housing program which provides affordable housing with increased connectedness and accountability.

Career Training Program and One Eighty Enterprises:

Career Training Program: This aspect of our program has been designed and developed to assist our residents in closing the “job gaps” that may appear in their work history. We also desire to give opportunities and teach them skills that will broaden their scope when looking for gainful employment later in their program. The career training program also helps assist the ministry in becoming and remaining financially self-sustaining. The first 8-10 weeks of participation in the career training program will be considered community service time in order to give back to the ministry. As the residents progress into Phase 2, they could potentially earn a small stipend check from the career training program which will be based on percentages of time spent and work accomplished.

Residents are enrolled in our Career Training Program working with the One Eighty Enterprises from assessment phase through Phase 3. The Career Training Program will be approximately 25-30 hours a week and residents must be physically able to work that number of hours. In Phase 3, they begin looking for work and continue to work in the career training program. Beginning in Phase 4, they are allowed to have outside work.

Classroom: Residents complete classroom work to improve their skill set and experience. These classes include:

Life Skills covering topics of such as nutrition, the Church, investment and insurance, and government

Finance classes that teach money management, budgeting, debt reduction, credit and preventing identity theft

Relationships classes that help learn what is a healthy relationship and couple classes as needed

Employment preparation class to develop a cover letter and resume and preparing for a job interview

The TURN which is a bible study that focuses on the 12 steps

Genesis Process relapse prevention and recovery skills

Ultimate Journey looks back on what has brought you to this point and find healing through a relationship with God

Apprenticeship Program: Offered to those who show the interest and potential to work for One Eighty in some capacity in the future. One Eighty recognizes it is not our duty to call someone to ministry, but to recognize the calling God may have on their life. If One Eighty staff feels a resident could possess the will and ability to either work within One Eighty or another ministry position outside of One Eighty, they can be accepted into our Apprenticeship Program. In order to be eligible they must be in Phase 3 or 4, be nominated by a staff person, and accept the conditions presented.

Entrepreneurship: We see entrepreneurship as a valuable choice of employment. If residents show interest and the potential, an entrepreneurship could be made possible through One Eighty. They first must complete our Apprenticeship Program and then present a business plan to develop a One Eighty Enterprise.

GED/HISET: If a resident would like to earn a GED, we will assist them in connecting with the HISET program at EICC.

College Courses: Residents may take college courses during Phase 4 if they are also employed.

One Eighty General Information

We cooperate with local probation and parole services. We also collaborate with local social agencies to provide individualized support and to meet specific goals.

You will be provided with a bed, bedding, towels, clothing, and personal hygiene items. All essential needs are met. Other household items are shared. One Eighty has staff to assist with supervising and implementing the rules and home upkeep, so that the facility can be a home to those who have nowhere to turn. We believe this environment will give you a sense of “family”. If needed, clothes can be provided by donations.

We want to provide a resource for families to be able to share struggles and find encouragement together. We offer a 13 week Bible study group, the Turn, which families of our residents may attend for education and support.

Program Guidelines:

It will protect them from temptations while they learn to make new choices and achieve lifelong direction.
3. Applicants must disclose all current or past legal problems, upcoming court dates, charges, court fines, legal fees, parole rules and probation rules, DHS involvement, custodial agreements. Residents must be willing to sign releases of information for these issues as well. _____ initial

All income, with the exception of a family member giving a resident up to \$100.00 per week when food stamps are not available, or \$50.00 a week when food stamps are received, is subject to the income guidelines below. We utilize food stamps if the resident is able to get them, and if not, we utilize things such as local food banks for those who don't receive state benefits. When approved, the residential facilities will be participating in the State Food Stamp Program. All rules for those agencies must be followed. Once work is found, residents are required to follow through with a budget plan so that their resources are being used wisely.

Dating/Relationships:

We **DO NOT** allow dating or pursuing romantic relationships while a resident in the program. The only exception to this is if you enter the program married or engaged*. _____ initial

Examples of dating or pursuing relationships include but are not limited to:

- Sex/any sexual activity or romantic physical touch (holding hands, kissing, sitting closely, etc.)
- One on one conversations with the opposite sex (phone conversations, texting, emails, in person)
- Meeting up with someone privately or at AA meetings, etc.
- Calling an ex
- Showing special interest in a friendship with man or woman more so than other individuals

IF staff recognizes these behaviors, it may result in probation or termination of the program. We recognize that it is natural to feel a romantic attraction to the others, but acting upon that is a choice. Being honest if confronted or if you have made a mistake goes a long way.

Reasons for “No Dating” Policy:

1. The number one reason why people relapse or walk away from the program/or faith is usually connected to a romantic relationship. This can happen because of stress relationships cause or false hope in the relationship that things will be better together before individuals have fully recovered.
2. We are pro-marriage and pro-single at the same time. However, we have seen that more often than not, relationships that last and become strong are made of individuals who have a solid foundation in Christ and know themselves. That is what this year of singleness is all about. We want you to remain single in the program so that you can be ready for relationships the way God intended.

*If you are married/engaged there may be specific guidelines/boundaries given to you by the house supervisors. For example if you are engaged, (not married) we will have to put boundaries on the physical relationship in accordance with our statement of beliefs.

Complaints:

If individuals have concerns about the operations of One Eighty, they should talk to the One Eighty house supervisor, or bring it to the monthly forum. The concerns will be passed onto the appropriate leader/staff. They will be taken under further review. These concerns should not be discussed with other people, either inside or outside the ministry.

*These rules and regulations are subject to change at any time without prior notice by the leadership of this program. These rules and regulations may be slightly different for certain individuals for specific reasons. Altering the schedule for one does not necessitate altering for all.

Intake/Registration Information

Residents are first approved by the One Eighty Leadership, and then final approval is made by the intake team.

Admission Criteria

We believe we are all created equal, no matter social status, money, or race. All residents will be treated the same, however, with individual attention and care. Our residents must be at least 18 years of age. They must be teachable, willing to allow Jesus Christ to change their life, and be ready to submit to the authority and the rules placed in front of them.

We reserve the right to have an individual removed from the program for breaking one or a combination of the guidelines. _____ initial
